

Dear Sir/Madam

Domestic Violence and Intolerance is increasingly becoming a pervasive social problem in Indian society. It is often seen that different stereotype values, uncritical beliefs, and non-reflective perceptions prevailing in society and thereby among the family members, give rise to such intolerance and violence in families. Against the backdrop Activism Scholars' Forum is going to organize an online "Public Discussion" on 4th December 2021 @ 6 p.m. Through this Public Discussion ASF would like to understand such endogenous factors of domestic violence and intolerance and also to make out some effective strategies to prevent such violence within the family itself. We cordially invite you to grace the occasion and to take an active part in the brainstorming discussion. **For participation you are requested to fill up the Registration Form following the below mentioned link by 1st December, 2021.**

However, you may either be the audience or the victim of the domestic violence irrespective of gender. You may share experience of others you know personally. You may send also a write up to us for present on behalf in the discussion. We are welcoming you all. If you would like to share your experience anonymously keeping your identity secret you may do so while keeping your video off and participating in the discussion using an anonymous email ID. If you kindly mention your such preferences in the Registration Form, we could make arrangement accordingly and keep your identity confidential.

Thanking you
